

# Indie NiFTys

Indie NiFTys is a digital marketplace for independent artists, photographers, musicians, film makers and dancers to list their work for sale as NFTs. The marketplace will be promoted through Discord, Twitter, Instagram, Podcasts as well as standard media outlets to become well known globally for its focus on the Indie creative community.

We can support contributors both through promoting the sale of digital NFTs (Non-Fungible Tokens) and through organising the printing and postage of physical items (after purchase sales if required).

Indie NiFTys values the emerging and established community in the Art Space and wants ongoing success for all contributors.

Our approach at Indie NiFTys is to be transparent and supportive to creatives by working with them to provide the following:

- Digitalisation of images into NFTs
- Promotion of the site through social media outlets
- Printing and postage of images after sale if required
- Supporting artists to set up Metamask to receive funds and provision of clear instructions for them to transfer digital currency into their local currency.

Upon the sale of your NFT listed on Indie NiFTys, NiFTy NOW will receive a 15% fee and 85% of the final sale value will be sent to the artist. Gas and transaction fees will need to be considered in the final value of the NFT sale, this is paid by the purchaser.

## Copyright

The type of copyright for any work listed in the marketplace will be discussed with the creator prior to listing and will also be made clear to the purchaser of the NFTs.

What artist, photographers, musicians, film makers and dancers will need to supply to be listed on the Indie NiFTys marketplace by using the form on [niftynow.io](http://niftynow.io)

- Bio about their work and an image, music, photograph and film that creatives would like displayed, that represents them to the world. It is helpful to have a story that goes with the image, music or film to give a greater understanding of the piece.
- For some creatives having images, video and music for personalising their work will be helpful for others to have an understanding of their presence in the NFT community.
- A confidential application will need to be completed through the website and we will require proof that the material you are supplying for listing is your own creation by signing the document.
- After your work is accepted to be listed on the Indie NiFTys Marketplace, there will be a processing time of up to 3 weeks.
- Please send your artwork, photographs, film or music to [nitynow.global@gmail.com](mailto:nitynow.global@gmail.com).

Indie NiFTys is a branch of NiFTy NOW PTY LTD Global Specialist NFT Consultants.
